Reels in Tirumala Temple Premises

Case Filed Against Accused, Action on Negligent Staff

TTD takes serious view of reel shooting in front of Sri Vari Temple

Tirumala, Oct 27 (T Media):
The Tirumala Tirupati Devasthanams (TTD) has immediately responded to the incident in which some individuals shot a dance reel in front of the Sri Vari Temple. A complaint has been lodged against the accused at the Tirumala I Town Police Station.

Disciplinary action has also been initiated against the staff who were negligent in their duties at the time of the incident.

TTD has made it clear that filming reels and videos is completely prohibited in the temple premises and in the Mada streets. Strict legal action will be taken against anyone who hurts the sanctity and holiness of the temple.

TTD has appealed to devotees to cooperate in preserving the purity and sanctity of the temple.

Key Points

- Reel shooting in temple premises banned
- Case filed at Tirumala I Town Police Station
- Action against negligent staff
- Strict legal measures for those who violate temple sanctity
- Devotees requested to cooperate

The Glory of Lord Ganesha

Lord Ganesha, who removes obstacles, listens to the prayers of devotees and symbolises wisdom, holds a special place in Hindu tradition. It is our custom to worship Lord Ganesha before beginning any auspicious work. Devotees believe that praying to Lord Ganesha with devotion brings courage and peace of mind.

1. Son of Goddess Parvati

According to Puranic legend, Goddess Parvati created a boy with her divine power and asked him to guard the door while she was taking a bath. When Lord Shiva arrived, the boy did not allow him to enter. Following the incident, Lord Shiva gave the boy an elephant head, brought him back to life and declared him the leader of the ganas. He also blessed him to be worshipped first in all auspicious works.

Moral: Changes in our lives can also lead to new opportunities.

Swamiye Saranam Ayyappa!

Lord Ayyappa, the boon-giving deity of devotees, a symbol of dharma and known as the son of Hari and Hara, blesses devotees who chant "Swamiye Saranam Ayyappa" with peace of mind, courage and inspiration to follow the path of righteousness.

Swamiye Saranam Ayyappa!

Festival / Special	Atla Tadda

International Animation Day

October 28 is celebrated worldwide as International Animation Day. This day is dedicated to recognising the talent and creativity of artists and technical experts in the field of animation.

Rising Risk of Breast Cancer Among Women

Breast cancer is one of the most common cancers among women globally and in India. In 2025, around 2.39 lakh new cases are estimated in the country. October is observed as Breast Cancer Awareness Month every year. Women should not neglect their health due to family responsibilities, work pressure or fear. Recognising symptoms and consulting a doctor in time is crucial.

What are the symptoms?

- New lump in the breast
- Change in size or shape
- Skin dimpling
- Nipple turning inward
- Unusual discharge

What is Mammography?

Mammography is a special X-ray test for the breast. Artificial Intelligence (AI) can help doctors analyse images and identify suspicious areas. However, it is not a replacement for doctors and additional tests may be needed.

Early Detection is Better

There is no complete prevention, but a healthy lifestyle, maintaining weight and regular check-ups can reduce risk. Family history may or may not be present. Do not ignore any unusual changes and seek medical advice immediately.
