A New Era in AP Education System

CM Chandrababu Naidu announces "Integrated Residential Schools" for all

Andhra Pradesh government to bring SC, ST, BC and all communities under a single Gurukula system

- All students to study together in a common environment
- Aim to provide equal opportunities and quality education
- Modern infrastructure with international standards
- 500 residential schools to be established across the state
- Focus on values, discipline and leadership skills
- To be implemented in phases over the next 5 years
- Education as a tool for social unity and progress

Social Unity
Students from all communities will study together, promoting harmony, equality and a strong social fabric in the state.

500 Schools
The government plans to establish 500 integrated residential schools with world-class facilities, modern infrastructure and quality teaching standards.

Implementation
The project will be taken up in phases over the next 5 years with adequate funding, trained faculty and strong monitoring systems.

Students from Warangal win APJ Abdul Kalam Innovation Award

Innovative Water Purifier Project selected at National Level

About the Project
The team designed a sustainable water purification system using locally available materials. It provides clean and safe drinking water at low cost, especially for rural and remote areas.

Key Highlights
- Students from Warangal developed a low-cost, eco-friendly water purifier
- Project selected for APJ Abdul Kalam Innovation Award
- Recognition for social impact and technological creativity
- Students aim to make the project available for rural areas

Future Plans
Students are working towards mass production and real-world implementation with government and private support.
