INTERNSHIP OPPORTUNITIES FOR STUDENTS

Join as an Intern and Build Your Future!

Students pursuing higher education can gain valuable practical experience through internships. These opportunities are particularly beneficial for students from rural areas.

The National Education Policy (NEP) 2020 emphasizes experiential learning, encouraging students to gain practical knowledge alongside academic education.

Internships help students develop professional skills, understand workplace requirements, and improve their career prospects. However, many companies are unable to provide internships to all applicants. Efforts are being made to expand internship opportunities, with the goal of providing more opportunities to students by 2027.

2.07 LAKH STUDENTS IN THE STATE — EDUCATIONAL INFRASTRUCTURE UNDER PRESSURE!

Dropouts Remain a Major Challenge; Focus Needed on Educational Development

According to the figures cited in the report, more than **2.07 lakh** students are missing from government and private educational institutions across Telangana during the 2025–26 academic year.

Providing quality education to such a large student population requires adequate classrooms, qualified teachers, essential facilities, and effective implementation of educational programmes. Ensuring that every child has access to education and preventing students from dropping out remain important challenges.

Key Statistics

- **73,054:** Students in government schools, as cited in the report.
- **1,34,680:** Students in private schools, as cited in the report.
- **1,27,306:** Students in Hyderabad, Medchal, Rangareddy, and Sangareddy districts, according to the report.

Education Needs Greater Attention

The education sector faces several challenges, including the need to improve infrastructure, strengthen teaching standards, and reduce school dropouts. While educational institutions continue to expand access to learning, sustained efforts are needed to ensure that students receive quality education and have better opportunities for the future.
